Nature Of Opinion

Docket Number: E-01575A-15-0127

Docket Position: Against

From: Lane and Ursula Garrett, P.E., C.E.M.

Subject: SSVEC should review all rates, including solar rates, in a rate case.

Dear Utility Division,

Many other States have Evaluated Net Metering and found that it not only benefits the roof-top owner but the utility company by reducing on-peak high generation costs and allowing delay in infrastructure expenses. All Americans deserve the ability to power their own homes, and get fair credit for the energy they produce. SSVEC has launched an attack on individual choice and property rights by proposing high taxes on homes that produce their own power, and they've launched this attack outside of the proper procedure of a rate case.

SSVEC is trying to ram through a discriminatory solar hearing despite the fact they are planning a rate case in the very near future. Please don't let SSVEC waste customer money and resources.

They should review all rates, including solar rates, in a rate case.

Sincerely,

Arizona Corporation Commission

Nature Of Opinion

Docket Number: E-01575A-15-0127

Docket Position: Against

To: Utilities Div - Mailbox

Subject: All of your customers deserve solar choice.

Dear Utility Division,

Solar power is good for Arizona, and provides homeowners a choice in how they power their homes. Your customers deserve that choice.

SSVEC has launched an attack on energy freedom by proposing unfair taxes on homes that produce their own power through rooftop solar outside of the proper procedure of a rate case. SSVEC is planning to sneak in a special hearing to tax solar customers despite the fact they are planning a rate case in the very near future.

Please oppose SSVEC's proposal. Don't waste customer money and resources on a hearing to tax solar customers, particularly with a rate case in the near future. They should review all rates, including solar rates, in a rate case.

Please consider the benefits of solar, which suits Arizona perfectly. It's time for us to use this natural resource.
